THE LECTURE COURSE

INTERESTING ENTERTAINMENT THIS WINTER

For the Benefit of Genoa High School—
Season Tickets will be Sold for \$1.50
—First Date Fixed.

A lecture course under the auspices of the Genoa high school will begin Thursday night, October 27. The first number will be a lecture by Dr. John R. Reitzel of Chicago. His subject is, "The Devil and the Turk in his own Country." Dr. Reitzel is an able and eloquent lecturer, so much so that Dr. Gunsaulus says of him, "His personality and lectures are true and interesting and valuable as well." We need not much higher authority than this to prove that we are going to have a remarkably good lecture.

There are seven numbers in all in the course. They are as follows, in addition to the lecture by Dr. Reitzel: The Chicago Ladies Concert Co., William Sterling Battis, the "King of Impersonators," Dr. E. B. Swift on "The Wonders of the Microscope and Telescope," the well known jubilee troupe known as "Glaziers Carolinians," Dr. Frank C. Bruner in his pathetic, humorous and dramatic story of "Uncle Billy and Aunt Harriet" and Geo. E. Garretson and Lee Stewart, a couple of unique entertainers in the matter of music and magician's tricks.

This course of seven numbers will be sold for the small sum of one dollar and a half for the entire course. This makes each number cost a little over twenty-one cents. Single tickets, thirty-five cents. For this reason one buying a season ticket can afford to do so even if he attended only five of the season numbers. Not all the dates are in the hands of the management but they will be given about two weeks apart as near as possible. Dr. Bruner will lecture November 8 and Swift, the astronomer, lectures December 5. None of the dates will be on Saturday so that business men can attend if they wish without seriously neglecting business.

The course has been purchased partly on a percentage basis with a low cash guarantee so that the management is not going to lose any money. Also, there is some prospect that a little money may be made. If any is made no individual gets any profit but it will go towards purchasing things for the high school. The course was purchased through Mr. H. M. Holbrook. Mr. H. is the man who furnished all the material for the excellent chautauqua held at Sycamore this summer and who is to furnish the talent there next year. As Mr. H. says himself, "I cannot afford to sell you poor talent." He has heard all of this himself and pronounces it first-class. Anyone paying \$1.50 for a season ticket and not getting his money's worth after attending this course can have his money back.

LATER—By special arrangement Dr. Reitzel's lecture will be postponed until a later date and the first number will be the lecture by Dr. Bruner, November 8.

WM. P. AINLEY DEAD

Passed Away Sunday, Oct. 16—Was Fifty-Seven Years Old

Our deceased neighbor, Wm. P. Ainley, was born in Canada, Sept. 3, 1847, and died at his home about four miles northwest of Genoa Sunday, Oct. 16, 1904, being 57 years, 1 month and 14 days of age at the time of his decease.

Mr. Ainley has lived in this vicinity for more than 36 years, having come from Canada to Genoa township when he was about 21 years of age. He was united in marriage to Miss Sarah E. Layton Nov. 7, 1876, and to them two children were born, a son and a daughter, both of whom died several years ago. His wife died May 7, 1882. On the 7th of October, 1883, Mr. Ainley was again united in marriage to Melissa H. Layton, a sister of his former wife, and into their home five children were born, two of whom have died and three living to survive their father, one son and two daughters.

Besides his bereaved wife and three children he leaves three brothers and one sister to mourn his departure. His brothers are: John W. Ainley of Montana, Josiah Ainley and Joseph Ainley both residing in Canada. His sister is Mrs. Mary Greer, also living in Canada. But besides these immediate relatives he leaves a large number of distant relatives and intimate friends who also sorrow at the thought of his almost early departure.

At the time of his death Mr. Ainley was a member of the Modern Woodmen of America, Genoa Camp No. 163, and also a member of the Knights of Maccabees, Tent No. 44 of Genoa, having been a member of both these fraternities for many years.

About four years ago Mr. Ainley sustained an epileptic stroke which rendered him unfit both mentally and physically for the ordinary duties of life and which finally caused his death. For all these years which he has resided in this community he has enjoyed the reputation of being a good neighbor, a law-abiding citizen, a friend to the sick and afflicted, and many there are who speak of his character in words of highest praise.

The floral pieces contributed by the fraternities of which he was a member were many and beautiful. The funeral was held on Wednesday, Oct. 19, from the home at 10 o'clock and from the M. E. church at 10:30. Interment at Genoa cemetery. Rev. T. E. Ream, pastor of the M. E. church, conducted the funeral services. Members of the Woodmen of Genoa camp attended the services in a body and rendered the burial ritual at the cemetery.

PRICE FOR MILK

As Suggested by the Milk Shippers' Union

The prices per eight-gallon can of standard milk, as suggested by the board of directors of the Milk Shippers' Union for the following months are as follows, F. O. B. Chicago:

October.....	\$0.95
November.....	1.15
December.....	1.15
January.....	1.15
February.....	1.10
March.....	1.10
April.....	1.00

The above prices were suggested by the M. S. U. for the winter months after an agreement upon them by a committee from the Milk Dealers Union. This amicable adjustment will make the price standard and firm.—Milk News.

ANOTHER "BILLY SUNDAY"

Will Come to Genoa in November to Assist Rev. T. E. Ream

The Rev. Manley Wilson, an evangelist of much note thruout Ohio and several places in Indiana and Illinois, will come to Genoa in November to assist Rev. Ream in conducting a series of "Evangelistic meetings."

Mr. Wilson is a power in the pulpit and knows how to preach "bible truths" with telling effect upon human hearts. He has given his entire life to this special work and stands before the people as the "Man of God" to speak God's truth whether men love to hear it or not. Wherever Rev. Wilson has preached scores have denounced the "old life" with its sinful habits and have turned to "Christ's gospel and God's power" to save them for all future time.

Mr. Wilson will bring to Genoa with him a man of consecration to the cause to lead the singing during the meetings, who will organize all the available singers of the church and community into a large chorus to sing during the services. Mr. Wilson and his singers are now conducting special services in the state of Ohio, but expect to be in Genoa to hold the first meeting of the series on Tuesday evening, Nov. 1st and to continue for three weeks or longer. On account of his energy and spirit of daring in denouncing sin and unbelief, Rev. Wilson has been called a "Second Billy Sunday."

Rev. Ream expects to begin the evangelistic meetings the last of next week and continue them alone up to November 1. Christians of all denominations are cordially invited to attend these services and assist and encourage the good work. Those who are not church members are especially urged to be present and hear the continuous preaching of the gospel as Peter preached it in ancient Jerusalem on the "Day of Pentecost." The services will be held at the M. E. church.

BIG APPLES

Those Shown by Herman Hartman Look Like Young Pumpkins

The Belvidere Republican says that the "big apple" belt is now held by Herman Hartman, who lives six miles from Genoa. The other day he brought to the office a Wolf River, which measured 13½ inches in circumference. He brought also a splendid Winter Transparent almost perfectly round and measuring just a quarter of an inch short of 12 inches. He says that he has a hundred bushels of apples of which these are samples.

Better Mail Service

Postmaster Crawford has succeeded in adding another outgoing mail to the excellent service which Genoa now enjoys. Beginning Saturday evening a sack containing Chicago mail will be sent to Davis Junction at 6:50 and from there sent to Chicago on No. 4, arriving in the city at nine o'clock. This mail will be taken out in the first morning delivery. Merchants and all business men will greatly appreciate this service as it will make it possible to order goods by mail in the evening and receive them by express the following day. The mail closes at 6:30.

Deneen at DeKalb

Charles S. Deneen, Republican candidate for Governor, will speak at DeKalb Saturday, Oct. 22, at 2:30 p. m. The Republicans of DeKalb extend a cordial invitation to all voters of the county.

AN EXCITING RUNAWAY

JAMES STEWART AND FAMILY NARROWLY ESCAPE DEATH

Run Down by E. G. Cooper's Heavy Team and Oil Wagon—Escape from Death a Miracle

If such a thing as a lucky runaway is possible, such a one took place on Main street in this city Wednesday morning when E. G. Cooper's heavy team and oil wagon went down the street at terrific speed, striking James Stewart's wagon and throwing the occupants to the ground. How the family ever escaped without some one being killed or fatally injured will always seem a miracle to those who witnessed the terrible collision.

With Mr. Stewart in the wagon were his wife, son Frank and little daughter. They were all thrown to the ground with great force. Mrs. Stewart and son, Frank, were badly injured, but the other two escaped with only the soreness that such a fall would naturally cause.

The oil wagon to which was hitched a heavy team of horses, according to Mr. Cooper's story, was standing near Fred Wells' store, the horses being tied with a rope. They became frightened at something, broke the tie strap or rope and went down Main street as fast as they could pull the heavy wagon.

Mr. Stewart was driving west on the street, saw the team coming and thinking to avoid a collision turned to the left near the Commercial hotel. When he reached the curbing, however, the runaway had headed in the same direction, having been swerved in their course by the attempts of people on the street to stop them.

Again fearing a collision, Mr. Stewart attempted to cross to the north side of the street, but as he made the move the runaway again swerved and went to the north side. To escape now was impossible and altho Mr. Stewart applied the lash and tried to urge his team out of the way, he was a second too late.

The tongue of the oil wagon struck the farm wagon near the front wheel, crushing it and turning the vehicle completely upside down. The weight of the heavy oil wagon forced the horses onto the wreck. It appeared at first as tho the Stewart family must all be pinioned under the entire mass of wreckage and horses, but the force of the collision was so great as to throw them out of the way. Mr. Stewart, Mrs. Stewart and Frank landed on the ground to the right and the baby was found under the wagon seat at the rear of the wreck. Altho the child was badly frightened, she evidently escaped without a scratch. Mr. Stewart escaped with a few slight bruises. Frank struck on his shoulders and back and the shock took his breath for some time. He was also bruised.

Mrs. Stewart received the most severe injuries. Besides the terrible nervous shock, she sustained many bruises and her back was badly wrenched. She was taken to the Commercial hotel where kind friends were at hand to assist. Frank was taken up to Dr. Hill's office to recover from the shock.

The Stewart wagon withstood the crash better than would have been expected. The tongue was broken completely in two pieces and the front wheels on the left side put out of commission. The

dash board was splintered, but otherwise the box was not damaged.

There were many persons at hand when the crash came and the horses were given no chance to do any kicking or run farther. Stewart's team came out of the scrape with only a few scratches, but Mr. Cooper's horses did not fare so well, their legs being barked in several places.

It was a sight that will long be remembered by witnesses, strong men who were near at hand turned pale and became weak in the knees when they saw that a smash-up was inevitable and it was some time before any could realize that the family had escaped.

It was certainly a case of interference on the part of Divine Providence.

THE MEDAL CONTEST

Miss Marjorie Rowen Wins the Medal and Honors

Miss Marjorie Rowen, daughter of Mr. and Mrs. G. C. Rowen, won the honors and silver medal at the contest held at the M. E. church last Friday evening under the auspices of the W. C. T. U.

The program was rendered as advertised and enjoyed by a fair audience. The gross receipts for the evening were \$21.60. All the contestants did well and everyone is deserving of honorable mention. Miss Marjorie recited a difficult selection, and went thru it from first line to last without a break of any kind. There were close seconds, however, who performed ably.

Miss Rowen is justly proud of the honor she has won, and it will undoubtedly be an incentive to greater efforts in oratorical study. These contests should be encouraged by the parents of school children. To be able to speak in public with entire self possession is an accomplishment that every person should possess.

MRS. E. J. BUSS

Photographer

Altho Mr. and Mrs. Buss have moved their household goods into the Randall house on Sycamore street, they will still occupy the studio rooms over Lembke's store. Mrs. Buss is now doing nearly all of the studio work and it compares favorably with the best in the county. She is thoroughly acquainted with every detail of the business. Mr. and Mrs. Buss have been in Genoa for several years and have given the best of satisfaction. The season soon opens for holiday photos. The Buss studio will be prepared for this class of work.

Notice to Public

I wish to thank the public for past patronage under the firm of Bright & Olmsted and will be pleased to welcome you under the new firm of F. W. Olmsted & Co., always trying our best to treat you right. Yours truly,

A CALIFORNIA LETTER

GENOA YOUNG MEN NOW IN LOS ANGELES, CALIF.

One of the Three Writes of Their Experience—George Harvey Could Tell Good Insect Story

Los Angeles, Cal.

October 14, 1904.

The Republican-Journal, Genoa, Ill.

Mr. Editor:—Perhaps some of the friends of the boys who went to California several weeks ago are wondering how they are and what they are doing.

Well, we arrived in Los Angeles on schedule time, 7:25 a. m. Saturday, September 24. We found a gentle shower falling, which is quite unusual for this time of the year, the rains not beginning usually until November. There has recently been several heavy rains which have given things a decidedly brighter aspect than greeted the writer when he landed in this town just a year ago. At that time no rain had fallen for several months and none came until the 29th day of January. You can imagine something of the condition of affairs when I say that the dust laid on the roofs to quite a depth.

Well, we fellows thoroly enjoyed our trip, making many acquaintances among the passengers on the "Tourist." In fact our friend Irvin became quite engrossed in a young lady who occupied Section 10. Altho the Genoa colony occupied Section 13, nothing in the way of ill luck seemed to lurk about that mysterious number unless it was the trouble the boys had in controlling their appetites and storing away their clothes at night. One thing they could not seem to avoid and that was in allowing their heads to come violently in contact with the upper berth.

The grub baskets were opened regularly three times per day and all declared that never did anything taste better than when they were on the train. I think the main reason was that each realized that it was probably the last of mother's cooking they would be able to taste for some time to come and each wished to get his share of the spoils.

At Ogden, a number of the passengers stopped off for a visit to Salt Lake City, which is said to be a most enjoyable side trip. After leaving Ogden, the train took the new route which has been recently completed and is a cut-off that saves a great many miles of travel and consequently time. It consists of a bridge or rather trestle fourteen miles in length which crosses the Great Salt Lake near the northern end. Of course the great length necessitates the having of sidetracks and telegraph stations at several places on the trestle. At one of the sidings, our train stopped for about fifteen minutes and a number of us took advantage of the fact and got off of the car for a nearer inspection of the lake. The water seemed to be quite clear and of the green cast that is to be seen in all deep water. The only difference discernable in the water itself is a thin froth which floats on it. Around the piling the salt collects to quite a depth.

Along the edge of the lake are several large salt refineries. The salt water is pumped into great shallow tanks made in the ground where it is allowed to evaporate, leaving the accumulation of salt which is then scraped up for com-

For Better Representation

Aside from the national and state questions at issue in the coming election, Genoa has another object that should bring out all the Republican votes possible. We desire better representation in the county conventions. Based on the total vote cast for McKinley in 1900 we are now entitled to only eight delegates, one being allowed for every 50 Republican votes cast. According to conservative estimates which have been made the township of Genoa can poll over 600 votes. By united efforts on the part of working Republicans there should be 500 of those votes cast for Roosevelt. That would give us ten delegates and if all vote for Roosevelt we will have a representation of twelve. This would give Genoa a strong pull in county affairs and is an issue that should receive careful consideration.

WHATEVER evil or menace there may be in trusts and combinations of capital, the people will take notice that the Republican party is the only one that has attempted to break up illegal combinations of capital. During the two administrations that the Democratic party was in power it did nothing. The Republicans passed the Sherman anti-trust law, and all the suits under it have been instituted by Republican administration—the railroad injunction suit, the cotton pool cases, the beef trust cases and others. The Democratic party has done nothing but talk.

DEMOCRATIC legislation has never erected a factory, or given a workingman a job, or increased his wages. On the contrary, it has put out factory fires that Republican legislation has lighted; it has closed mills that Republican legislation had opened, and it has taken jobs from thousands of workingmen to whom Republican legislation had given employment. No American working man owes anything to the Democratic party.

THE question as to where Judge Parker would apply the pruning knife to national expenditures, whether in the post office department, the army, the navy or on pensions—items covering more than 80 per cent. of the national expenditures—has not yet been answered, and won't be, because national honor, safety and mail facilities are dependent on the appropriations for these purposes.

SINCE 1896, the last year of Democratic administration in national affairs, the rate of interest on farm mortgages has fallen from eight per cent. to six. This reduction in the rate of interest means a great deal to farmers who borrow money to buy more land or to make improvements, and it is due to Republican prosperity.

JUDGE Parker is anxious to know whether ours is to "remain a government of law or become one of individual caprice." It all depends. If the caprice might chance to be that of Allen B. Parker the voters will undoubtedly declare for a government of law under Theodore Roosevelt.

THE Democratic National Committee has taken the precaution to issue a double set of campaign buttons—one gold for the east and one silver for the west—and so the party as well as its leader manages to face both ways.

EVERYBODY cheerful. Everybody busy. Business booming. Crops selling for big prices. The nation at peace, and on good terms with the whole world. What's the matter?

Cause of Lockjaw

Lockjaw, or tetanus, is caused by a bacillus or germ which exists plentifully in street dirt. It is inactive so long as exposed to the air, but when carried beneath the skin, as the wounds caused by percussion caps or by rusty nails, and when the air is excluded the germ is roused to activity and produces the most virulent poison known. These germs may be destroyed and avoided by applying Chamberlain's Pain Balm freely as soon as the injury is received. Pain Balm is an antiseptic and causes cuts, bruises and like injuries to heal without maturation and in one third the time required by the usual treatment. It is for sale by G. H. Hunt.

QUESTIONS OF PUBLIC POLICY

To Be Considered at the Coming Presidential Election

When voters receive their ballots, consisting of about six yards of paper, more or less, at the poles it November they will notice four questions to be voted on, besides the candidates for national, state and county offices, electors, etc.

The proposed amendment to the constitution is a question that concerns Chicago directly. That city has for several years been tugging at its chains in a vain effort to keep the wheels of city government in conformity with the population. This has at last become impossible as under the old charter and under the state constitution as it exists today the laws are not adequate for the governing of so large a city. Chicago desires a special legislation or an amendment to the constitution which will provide a charter or scheme of local self government. This they can not have without the consent of a majority of the voters of the entire state. For that reason the following proposition will be attached to each ballot and all voters are supposed to either vote yes or no:

"Amending Article IV by adding thereto another section to be numbered 34, authorizing the General Assembly to provide by statute a charter or scheme of local self government for the City of Chicago."

The other three propositions are as follows, all to be voted yes or no as the voter sees fit:

"Shall the State Legislature amend the Primary Election Law so as to provide for party primaries at which the voter will vote under the Australian ballot directly for the candidate whom he wishes nominated by his party?"

"Shall the State Legislature pass a law enabling the voters of any county, city, village or township, by majority vote, to veto any undesirable action of their respective law-making bodies?"

"Shall the General Assembly submit to the electors of the State an amendment to the Constitution which will enable the voters of any county, city, village or township to adopt such system of assessing and levying taxes as the voters of such local municipality may desire?"

RETURNED TO KINGSTON

Rev. C. S. Clay Given this Appointment for Coming Year

Contrary to expectations, Rev. C. S. Clay, pastor of the M. E. church, was returned to Kingston for another year.

Not only is Rev. Clay popular here, but at the outer appointment, the Davis church, his return was hailed with a considerable amount of satisfaction.

The plans for the church the past year were well carried out and many substantial improvements made.

May this year be as successful as last is the wish of his congregation.

How Rockford Was Named

Four men, Wm. H. Gillman, Ebenezer Peck, Dr. Goodhue and a Mr. Haight, in an informal session many years ago gave Rockford its name.

The first name of the little hamlet where lived the earliest settlers of what is now Rockford was Half-Way. The name was chosen because the place was just half way between Chicago and Galena. The gentlemen mentioned thought that an improvement could be made on this name, and so they agreed that it ought to be changed to Rocky Ford, as the latter would be very appropriate, considering the fact that the ford across Rock river at that point had a rocky bottom. As years wore on, Rocky Ford gave way to the easier pronunciation of Rockford.

Goes to Wisconsin

A farewell reception was given in honor of Mr. and Mrs. H. T. Raymond, who reside north of this village, last Thursday evening. Mr. Raymond will soon move his family to Oconto Falls, Wis. The farewell was attended by the life long friends and neighbors of the family. He was born fifty years ago on this homestead where he has continuously lived. The property was previously owned by his father. John Ruback recently purchased the farm.

RAISING CORN

Some Interesting Figures by Two Illinois Farmers Relative to Cost

Two farmers, who have been figuring it up, gives these estimates on raising corn:

I used a gang plow with four horses, and led a horse behind drawing a section of a harrow, which harrows the ground twice. I plow and harrow five acres per day, and harrowing with four horses on an 18-inch harrow, I can harrow forty acres per day. I cover fifteen acres a day with the planter, twenty acres per day with the weeder, and ten acres per day with a two-row cultivator. Figuring on a sixty-acre field, plowing and harrowing requires one man and five horses twelve days at \$4.75 per day \$56; planting takes one man and two horses four days at \$2.50 per day, \$10; harrowing twice, one man and four horses three days at \$4, \$12; weeder three over, one man and two horses seven days at \$2.50, \$17.50; cultivating four times, one man and three horses twenty-four days at \$3.25, \$78; husking sixty-bushel yield, 3,600 bushels, at 3 cents per bushel, \$108; 5 per cent interest on land at \$75 per acre, \$37.5; taxes, \$30; total cost of growing sixty acres, \$547.50. This makes the cost \$9.12 per acre, or 15 1-5 cents per bushel.—A. S. Tanner.

There has been much said recently about the cost of raising corn. Some of your correspondents seem to grow corn much cheaper than others. The following is the cost of growing a bushel of corn in Hancock county, Ill., on \$125 land: I had ninety acres in land last year, half of which was farmed by hired labor. I figure all money at five per cent, and allow ten per cent. for wear and tear on horses and implements, but do not count any interest on buildings. My average crop for thirteen years is fifty bushels to the acre, and the average price is 35 cents per bushel.

Interest on forty-five acres at five per cent., \$281.25; labor for two and one-half months at \$25 per month, \$62.50; board and care for help while tending crop, at 50 cents per day, \$37.50; husking 2,250 bushels at three cents per bushel, \$67.50; board and care while husking, 3 1/2 days, \$18.75; interest on three horses at \$100 each and \$170 worth of machinery used, \$23.50; wear and tear on horses and machinery, \$47; 187 bushels of corn to feed horses at 35 cents per bushel, \$66.35; five tons of hay at \$7 per ton, \$35; actual taxes on land, \$13.50; total \$649.50. This brings the cost of production to 28 cents per bushel.—A. O. Behnke,—Kankakee Gazette.

Saves Two From Death
"Our little daughter had an almost fatal attack of whooping cough and bronchitis," writes Mrs. W. K. Haviland, of Armonk, N. Y., "but, when all other remedies failed, we saved her life with Dr. King's New Discovery. Our niece, who had consumption in an advanced stage, also used this wonderful medicine and today she is perfectly well." Desperate throat and lung diseases yield to Dr. King's New Discovery as to no other medicine on earth. Infallible for coughs and colds. 50c and \$1.00 bottles guaranteed by Hunt's Pharmacy. Chamberlin's Cough Remedy
No one else who is acquainted with its good qualities can be surprised at the great popularity of Chamberlin's Cough Remedy. It not only cures colds and grip effectually and permanently, but prevents these diseases from resulting in pneumonia. It is also a certain cure for croup. Whooping cough is not dangerous when this remedy is given. It contains no opium or other harmful substance and may be given as confidentially to a baby as to an adult. It is also pleasant to take. When all these facts are taken in consideration it is not surprising that people in foreign lands, as well as at home, esteem this remedy very highly and very few are willing to take any other after having once used it. Carrie Nation Again in Jail—Some Stories of Farm Truck—Rev. Farmiloe Receives Gold Watch

The Hampshire canning factory shut down last week having put up over 2,000,000 cans of corn.

Carrie Nation, after taking a whack with her hatchet at a booze factory, is in jail at Wichita, Kan.

The west side school building in Sycamore has been abandoned owing to its dilapidated condition.

Merritt L. Joslyn, a resident of Woodstock since 1839, died in that city Thursday, Oct. 13, aged 77 years.

The anthrax cases near Hampshire have been released from quarantine, and the disease is checked there.

G. A. Davey has sold his 80-acre farm one mile northwest of Garden Prairie, for \$110 per acre. He bought it about 18 months ago for \$94 per acre.

Members of the Elgin board of trade will visit the St. Louis fair in a body on the 24th of this month. A special rate of \$8.00 has been secured.

The Aurora young women are nervous from fright, as "Jack the Huger" has made his appearance in that city again. And it is said that the young ladies of Elgin are jealous.

Kirkland Enterprise: W. H. Anderson has purchased the old Frank Vosberg farm of eighty acres, which lies about three and one-half miles southeast of here. It is a desirable piece of property and will be fitted up to rent.

The vault in the office of the DuPage county treasurer at Wheaton was wrecked by dynamite Sunday night. A box of jewelry valued at \$2,000 was taken, but all the cash, which had been placed in an obscure corner, was overlooked.

Elgin Courier: Andrew McConnell of Burlington was in the city today, displaying some samples of potatoes which were raised on his farm. One of them measured more than twelve inches in length, another weighed 4 1/4 pounds. He also had some specimens of very good corn.

Rev. and Mrs. Farmiloe were given a great ovation before they left Elgin for their new home in Downer Grove. The congregation gave them a farewell that will long be remembered by the estimable couple. Each was presented with a beautiful gold watch. Rev. Farmiloe was in Elgin six years.

The Federation of Labor of Aurora Tuesday passed resolutions imposing a fine of \$5 upon any delegate who should be shaved in a non-union barber shop at Aurora. The delegates will probably have to go unshaved while in that city, as there are but two union barbers in Aurora and they are delegates to the convention.

Somonauk Reveille: We will soon be in competition with the southern climate in raising second crops if the warm weather of the past few weeks continues. Awhile ago Mrs. H. Thorp brought us some nice second crop potatoes and this week we were presented with some large straw berries from the second crop, by Mrs. A. J. Ranger.

The Rockford papers announce that the price of flour was advanced five cents per fifty pound sack by the dealers in that city on Tuesday morning. The bakers of the city had a meeting recently and an agreement was reached whereby the loaves of bread are cut to fourteen and one-half ounces being two ounces lighter than the standard weight of loaves as made in all cities in this part of the country.

An echo of the big Dundee bank defalcation is heard in the filing of suits for amounts exceeding \$160,000 against the firm of Tracy & Co., Chicago brokers who are said to have operated for

Cashier Wright in his speculations with the bank's money. The bank is back of the legal action which is based on a provision of the criminal law that enables anyone to sue for three times the amount lost in gambling. It is alleged in the bill that the brokers could have known "by the exercise of common prudence" that E. Linn, the name used by Wright in all his transactions with the firm, was the bank's cashier.

Editor's Wife Dead

Mrs. D. W. Tyrell, wife of the editor of the DeKalb Review, died Monday afternoon at 4:45 o'clock at her home at DeKalb, aged 61 years.

Mrs. Tyrell was a daughter of the late Mr. and Mrs. Charles B. Gray of St. Charles.

Besides her husband she leaves one sister, Mrs. E. K. Fowler, of Elgin, and four brothers, Ellis Gray of St. Charles, H. G. Gray of Aurora, John Gray of Iowa, and Duncan Gray of Omaha.

The funeral was held Thursday, interment at St. Charles.

Butter Market

The quotation committee declared the market firm at 21 cents on the Elgin board of trade Monday. The situation on the board was quite different from last week. Outside markets reported higher with decreasing receipts, orders unfilled were factors that changed the sentiment. Talk was of higher prices which materialized in bids of 22 cents before the call on all lots offered. Bids were raised to 22 1/4 without any sales. There is some increase of output in the winter dairies but not enough to effect the loss of the others.

A CALIFORNIA LETTER

(Continued from page 1)

mercial purposes. The next morning after leaving Salt Lake we awoke to find ourselves in the Golden State, and also in the midst of a heavy rain storm which lasted off and on all that day and night. Altho we were several hours late at one time, we arrived in Los Angeles on time.

One thing that strikes the visitor to Los Angeles is the great evidence in building, which is good evidence that the town is growing very rapidly. Altho the census of 1900 only gave the town 102,000 inhabitants, they now claim 175,000 and persons who are in a position to judge say that at the present rate of growth, the city will have 250,000 people by the time the 1910 census is taken.

Another feature about Los Angeles and southern California in general that takes the eye of the traveler is the superb electric car service. The electric lines reach nearly every city and village in the southern part of the state. There are nearly a dozen lines to the ocean some of which have a fifteen minute service.

One of the pleasures (?) which nearly every visitor to California enjoys (?) is fleas. For some reason or other these things do not confine their operations to canines but get in some very good work on individuals of the human species. If any of his Genoa friends wish a full description of the effects on the human body of flea-bites, I think George Harvey would willingly give them a full and illustrated description, at least he is a pretty good illustration of what a small parasite can do to a large man.

Hoping all our friends are well, I will close this missive with the advice to our friends to address us at 530 Temple St., Los Angeles, California. Yours Truly, ONE OF THE THREE.

RECORDS SMASHED

The Crops of 1904 Far Ahead of Conditions of 1903

A report from Washington says that the monthly report of the department of agriculture will show the condition of corn October 1 to have been 83.9 compared with 80.8 last year. The average quality of spring wheat is 75.7, compared with 85.5 in 1903. The returns indicate an oat crop of about 88,500,000 bushels or an average of 32.1 bushels per acre, as compared with 28.4 in 1903. The average for quality is 91.4 against 79.9 in 1903. The estimated yield per acre of barley is 27.2 bushels against 26.4 one year ago, and quality 88.7 against 85.4 last year. The estimated yield per acre of rye is 15.2 bushels against 12.4 last year. The quality is 81.6 against 84.4 last year. Average condition of potatoes Oct. 1 was 88.5 compared with 74.6 in 1903.

NEW ROAD PAYS WELL

Where It Cuts Thru Farms Near Kirkland—Station at McQueen's

Kirkland is jubilant over the prospect of having a steam freight line and an electrical line in addition to their present railroad facilities, and the hustling little city is preparing itself for a veritable boom, says the Belvidere Republican.

The Iowa, Illinois and Minnesota belt line, a steam road to be built mainly for the purpose of freight hauling, and now in operation from Aurora to DeKalb is about to start operations for completing their line as far as Rockford which will be the present terminus.

It is proposed to use the road mostly for freight traffic and as it touches most of the big lines entering Chicago it is expected that it will immediately be a success. What passenger traffic it gets will be handled with gasoline motor cars.

Active work on the grading of the road will begin at Kirkland next Monday when Contractor Kepner of Fort Dodge, Iowa, is expected with 100 teams and 250 men to start the work on the twenty miles of grade from Kirkland to DeKalb.

The company backing the projects expects to have the road in operation by Christmas.

The road is buying the right of

way thru Kirkland and has already settled with a number of people thru whose farms they pass. They are paying some fancy prices for some pieces.

The station will be built on land owned by John McQueen. The company will take 31.29 acres from the McQueen place. A settlement has not yet been reached as to the price to be paid.

A. D. Rote gets \$2,100 for 5 3/4 acres where they cross his farm.

They use 2 1/2 acres of the S. G. Rowan farm, but settlement has not yet been made.

James Gibson gets \$800 for 2 3/4 acres.

They take six acres from Geo. W. Ault.

Mike Gleason loses 9 1/2 acres and gets \$3,100.

No settlement yet from Ed. Ferrile's 5 1/2 acres.

Will Holmes gets \$1,000 for 2 1/2 acres.

It goes thru David Syme's place taking 3 3/4 acres for which no settlement is yet made.

The line cuts some of the farms in such shape that good big prices are paid.

Confessions of a Priest

Rev. Jno. S. Cox, of Wake, Ark., writes, "For 12 years I suffered from yellow jaundice, I consulted a number of physicians and tried all sorts of medicines, but got no relief. Then I began the use of Electric Bitters and feel that I am now cured of a disease that had

me in its grasp for twelve years." If you want a reliable medicine for liver and kidney trouble, stomach disorder or general debility, get Electric Bitters. It's guaranteed by Hunt's Pharmacy. Only 50c.

BOYS IN THE LEAD

More of Sterner Sex Than Girls Born in Illinois

According to statistics just issued by the state board of health nearly 3,000 more boys than girls were born in Illinois during the first six months of 1904. This is rather discouraging to the girls, but when it is stated that 43,468 youngsters were born during that period it will be readily seen that a large number of girls were among those present in spite of the fact that boys predominated.

Of the births 41,895 were white and 573 colored. Twins were reported in 327 cases, and there were 11 cases of triplets. Putnam county was lowest in the number of births, having but 60 during the six months. Cook county was first, with Peoria county second.

J. E. Stewart, agent for the Singer Sewing Machine company, is now located in Genoa and ready to make repairs on old machines, and the same taken in part payment. Needles and all kinds of supplies. Address P. O. Box 43, Genoa, Ill.
